I kinda picked this up as a when, and I guess you can tell I wasn't particularly interested by the quality of the writing. But honestly dropped series have always been my jam, so I felt an obligation to do the much. I believe that MOI has already stopped translating this bummer before doing chapter 27, so that may be out at some point. Beyond that, I don't know. This was kind of a surreal thing since there was no nov '06 in the month. (I'm not cheating on you Katsu-chuu! I promise!)

I received the members of Shibusawa Villa from a fan who was inspired by your attention to such detailed parts. Thank you so much! They're reading on my bookshelf right now.

The underground series gave me a hard time in the release, but please keep up your support.
